Professional Experience

Illinois Business Consulting

Champaign, IL

Consultant; Project 1-3

February 2016-Present

- Created, launched and analyzed a survey to determine demand, content and structure for two new programs being implemented by the client
- Researched key supply chain partners for a nonprofit client who is working on improving the Illinois economy and developed a strategy for identifying target companies and selling those companies on expanding to Illinois
- Analyzed the client's financial records to identify potential inefficiencies and then developed a strategy to improve back-end processes

Exelon Corporation

Chicago, IL

Corporate Strategy, Innovation and Sustainability Intern

June 2017-August 2017

- Identified potential growth opportunities for using blockchain in renewable energy financing
- Managed a \$50,000 budget to validate the feasibility, target market and possible revenue of the growth opportunities
- Assessed other growth, efficiency and culture projects in terms of prospective value to determine whether additional funding should be provided
- Gathered information on blockchain to determine best use cases for the energy industry and designed a blockchain architecture for an energy financing blockchain service

Find My Bus Technology

Barrington, IL

Founder

May 2014-June 2016

- Conceptualized a startup idea for a business incubator program and developed a business plan, financial metrics and a minimal viable product which led to the company being funded \$25,000
- Led a team to create detailed application requirements, process work flows and identified partners to develop the mobile application
- Negotiated financial contracts, master services agreement and project delivery timelines with partners and customers

Leadership Experience

National Organization for Business and Engineering

Champaign, IL

Vice President External

December 2016-December 2017
